### THEY WILL SEARCH FOR GOLD.

Organized Body to Leave This City for the Mines.

A meeting of the Co-operative Prospecting Company, which proposes to hunt for gold on the Copper River, in Alaska, was held last night, and the plan of organization perfected. There was a large attendance of ardent enthusiasts. The name "Co-operative Prospecting Company" was adopted. The object of the company is to prospect for precious metals and other mines for the benefit of the company.

The capital stock is to be \$5,000, divided into 500 shares. The first expedition to be sent out will consist of ten men, one of whom is to be a physician and one an assayer. None of the party shall be under twenty years of age nor over forty years of age, and must submit to a medical examination before departure.

Any member of the party injured in the field and who cannot there be properly treated shall be sent to the nearest hospital at the expense of the company.

The company shall be officered by a manager, assistant manager, storekeeper, and secretary, and an election shall be held every three months. Each man shall start from Seattle with 800 pounds of provisions, expected to last 400 days.

Capt. May, a mining expert, told of his experience on the Copper River in 1853. He found plenty of gold, but had to give up because of lack of food for an ounce of salt.

The next meeting will be held on Wednesday night.

**NORTHEAST IMPROVEMENTS.** Commissioners' Reply to the Citizens' Association's Suggestions. The Northeast Citizens' Association has recently been considering the matter of street improvements in its section. Through Mr. H. H. Martin the street improvement committee of the association sent to the Commissioners a few days ago, a communication containing the list of streets they desired improved.

The Commissioners yesterday sent to Mr. Martin the following partially favorable reply to his communication:

Dear Sir: With reference to the list of streets recommended by your association to be placed on the schedule for improvement, the Commissioners have the honor to say that they recognize the desirability of these improvements. They do not consider it advisable, however, to place the streets in the schedule in the order named in your communication. Inasmuch as these streets are all north of Maryland Avenue and in that portion of the northeast section of the city which has already received the most improvements, with the exception of one street near the bottom of the list, between East Capitol Street and Maryland Avenue.

Owing to the increased transportation facilities recently given to East Capitol Street and vicinity, it is believed that the streets in the neighborhood should receive some improvements as early as possible, and the Commissioners deem it inadvisable to place on the schedule all the unimproved streets north of Maryland Avenue to the exclusion of those between East Capitol Street and Maryland Avenue.

The Commissioners will endeavor to see that the streets between Maryland and East Capitol Avenue are properly placed on the schedule so that they will receive improvements in due turn and that this portion of the northeast will not be neglected in comparison with other portions.

Eighty street, between H and I, recommended by you for improvement, is now having work done upon it.

Should the members of your committee desire to make any verbal statements, the Commissioners will be glad to hear from them, Friday, October 1, at 11 a. m.
